

## FTP Access to Wounded Buffalo's Client Area

The FTP details that you will need to access our client FTP area are:

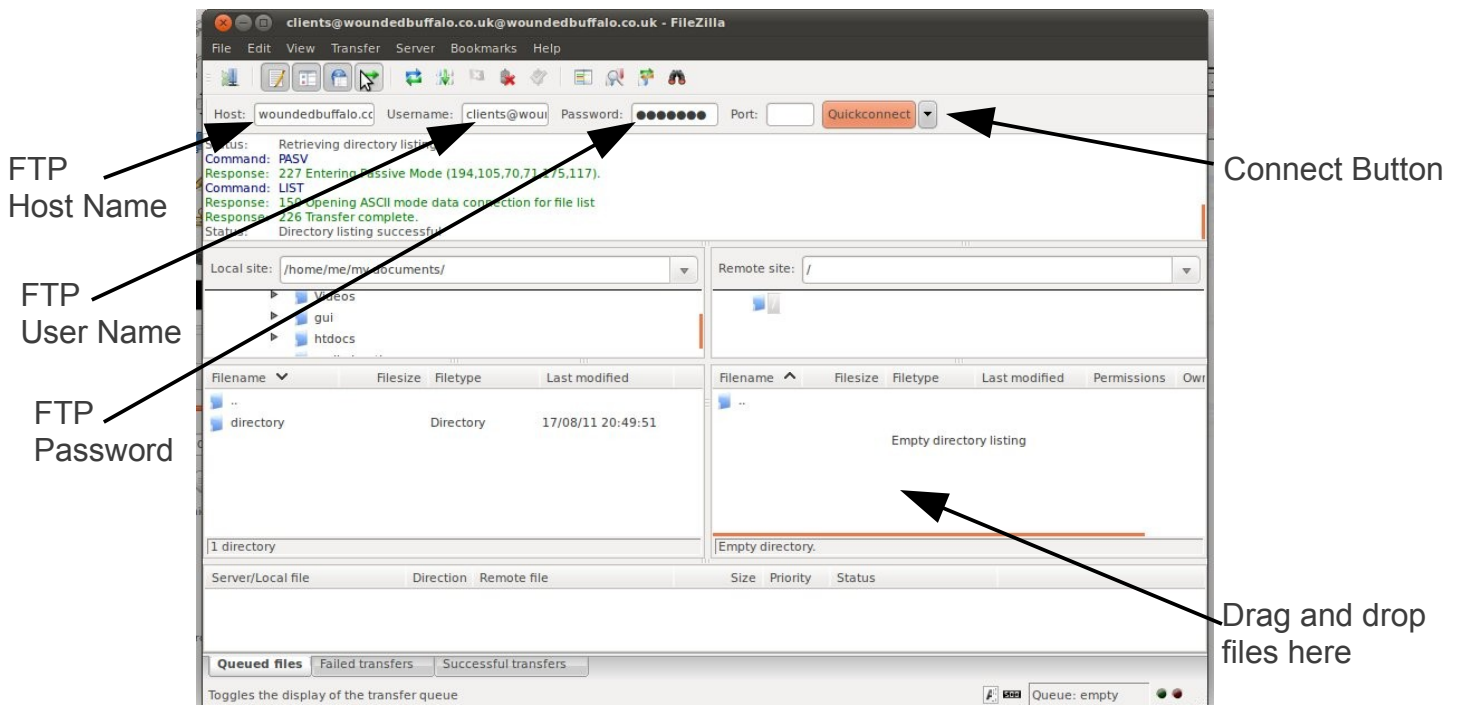

- 1) FTP Host Name
- 2) FTP User Name
- 3) Password

These details should have been sent to you along with these instructions but if you haven't received them, please contact us.

- 1) Download the FileZilla FTP client for your operating system from:

<http://filezilla-project.org/download.php>

- 2) Open the downloaded file and follow the on screen instructions to install FileZilla
- 3) When FileZilla has been installed, open it up and fill in your details as below
- 4) Click 'Quickconnect' and you will connect to the FTP storage
- 5) You can now drag and drop files into the FTP box and they will be copied onto the server.

FileZilla will store a copy of your connection details so next time you connect you can select the drop down arrow next to the quick connect button and select your saved connection.
